

Mr. Prakash Moorut
Global Head of Spectrum & Regulatory Affairs
Shure Incorporated

Prakash Moorut is the Global Head of Spectrum and Regulatory Affairs at Shure Incorporated, a leading manufacturer of high-quality, innovative audio products for 97 years. He is responsible for leading Shure's efforts to advocate for audio professionals as it pertains to regulations. Before coming to Shure, he spent 24 years in the mobile industry, most recently serving as Head of Spectrum Standardization for Nokia.

He is currently the Chief Regulatory Officer of the Wireless Innovation Forum (WInnForum) dedicated to advancing technologies supporting the innovative utilization of spectrum in bands such as the Citizens Broadband Radio Service (CBRS) shared band or the 6 GHz unlicensed band. He is also the Chair of the Ecosystem and Regulation Working Group of 5G-Media Action Group to address the potential use of 5G for media production and distribution.

He was part of the US delegation for the 2019 World Radiocommunication Conference (WRC) in Egypt and is a member of the US Federal Communications Commission's 2023 WRC Advisory Committee. He has been active in ITU-R meetings, including as part of the US delegations. He has several publications and patents related to spectrum usage and received his master's degree in Electrical Engineering from "Ecole Supérieure d'Electricité" (SUPELEC) in Paris, France.
